

PEOPLE'S PRIORITIES

AI-POWERED CONSTITUENCY INTELLIGENCE FOR EVIDENCE-BASED DEVELOPMENT PLANNING

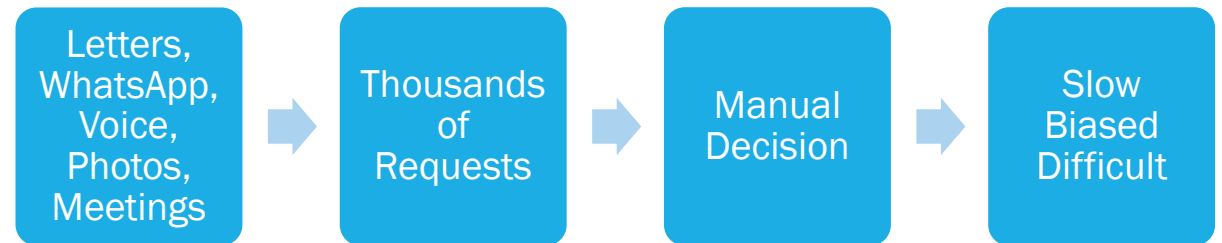

Team: Alpha Syntax

THE GOVERNANCE PLANNING GAP

■ Current Challenges

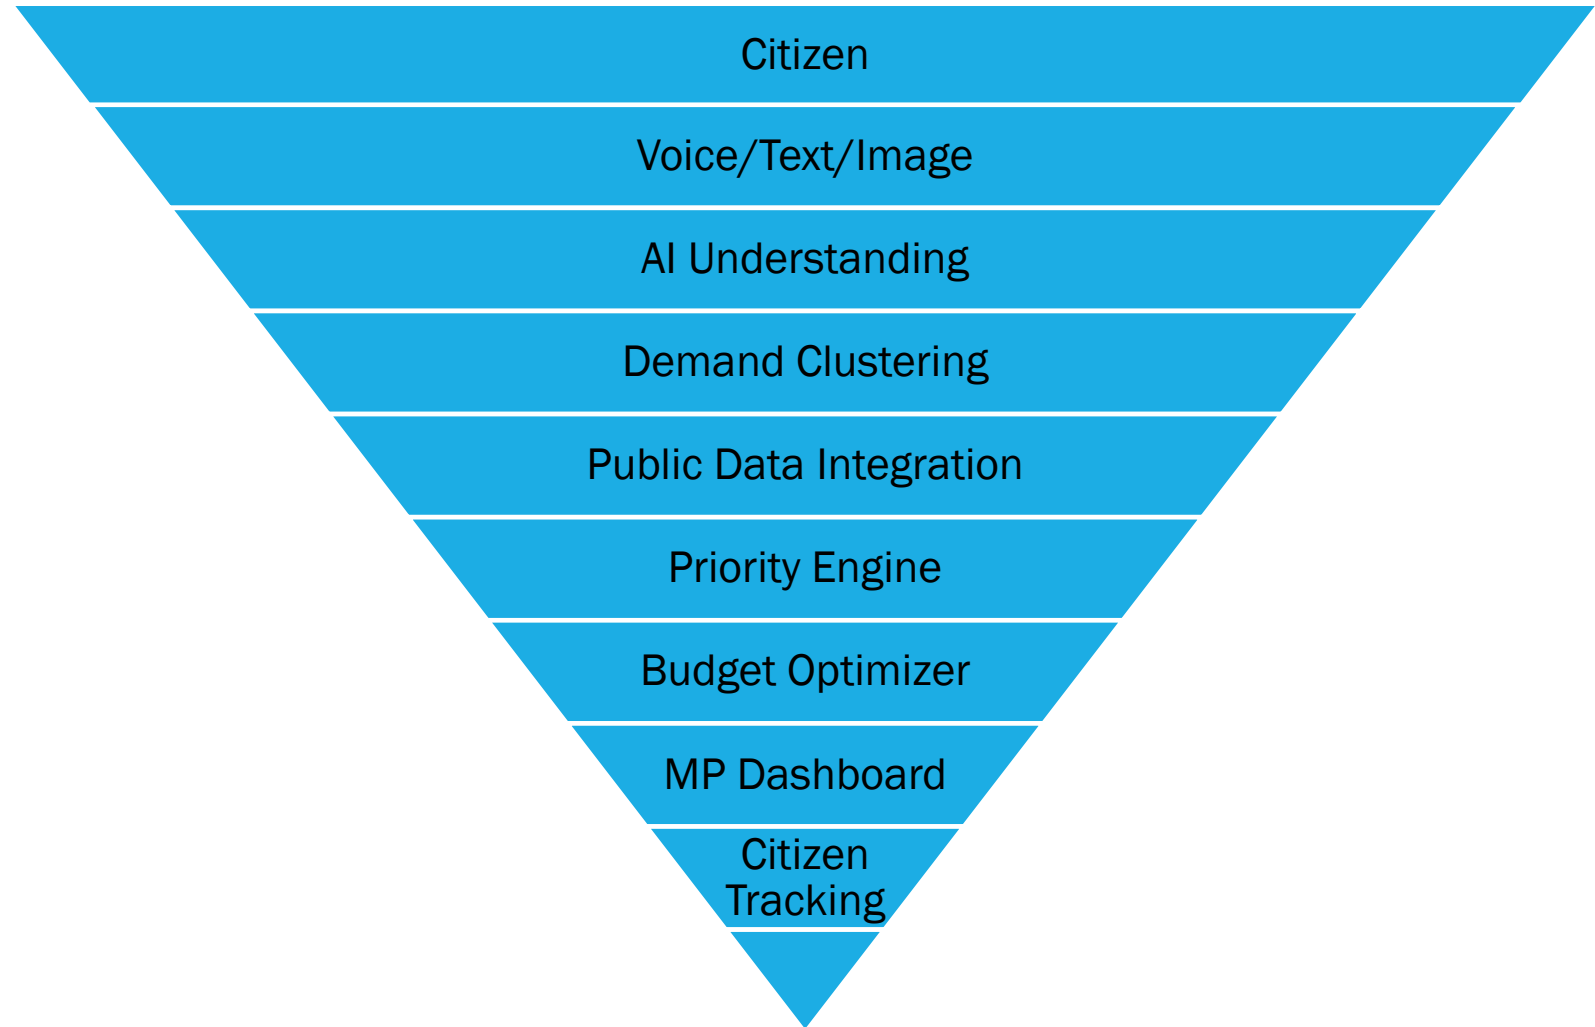

- **MPs receive requests from**
 - Public meetings
 - Letters
 - WhatsApp
 - Social media
 - Grievance portals
- **Thousands of requests are unstructured.**
- **Multiple citizens report the same issue.**
- **Fake campaign submissions distort priorities.**
- **No objective way to compare competing projects.**

Current planning relies heavily on fragmented information instead of consolidated evidence.

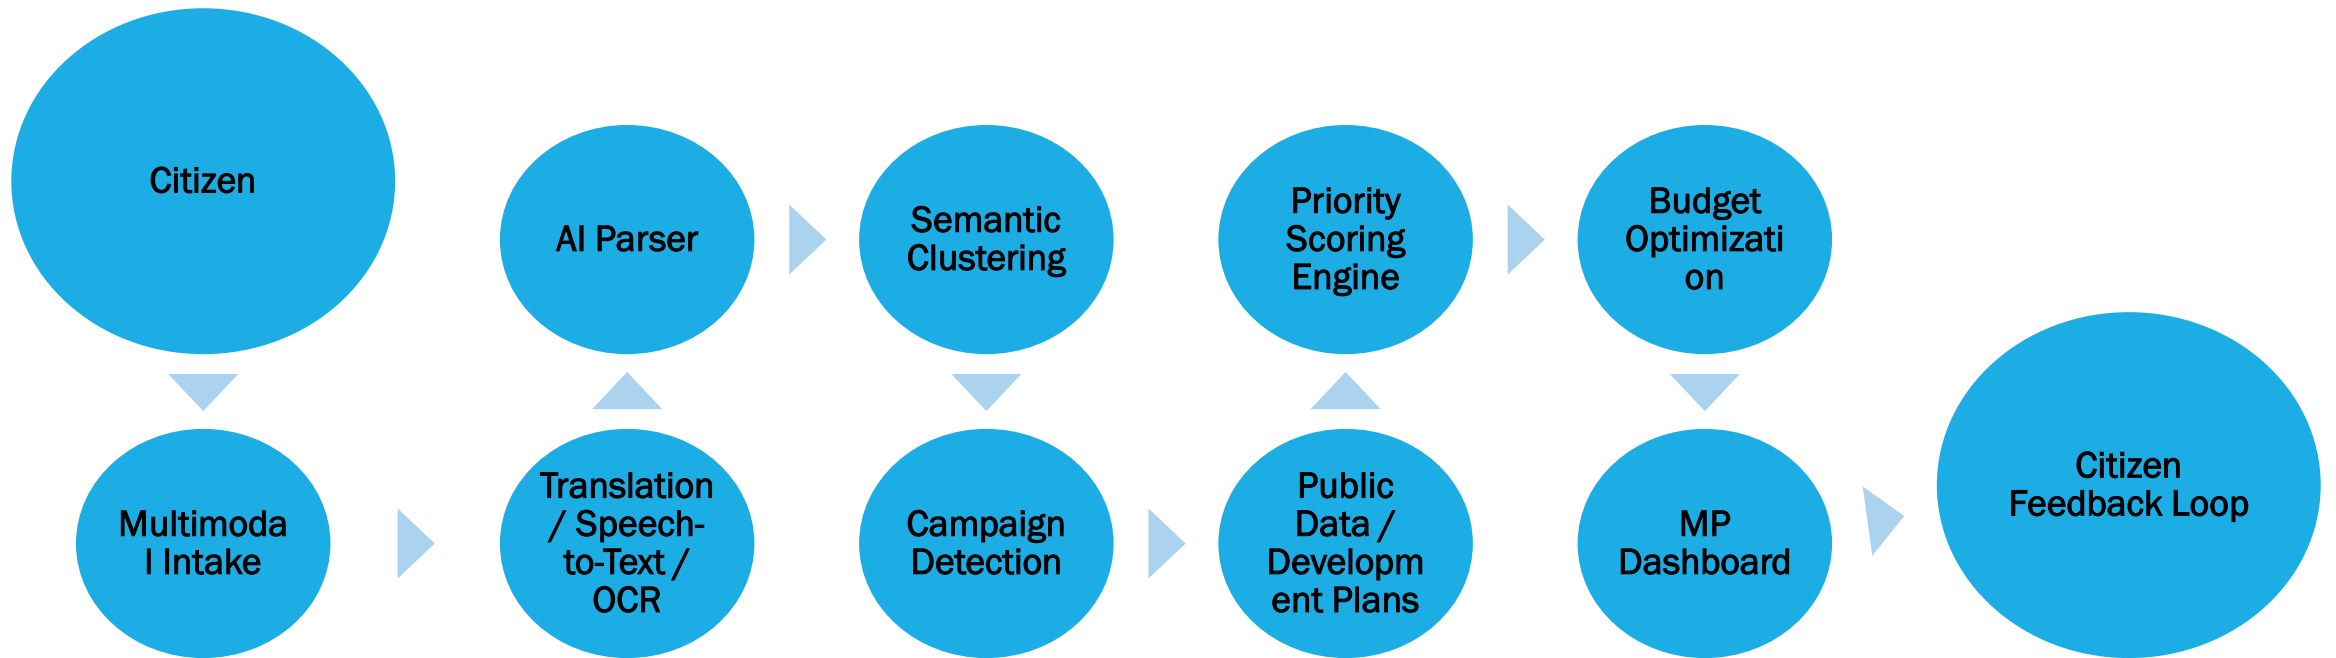

PEOPLE'S PRIORITIES

A multilingual AI-powered constituency planning platform that converts citizen suggestions into transparent, explainable, budget-aware development recommendations.

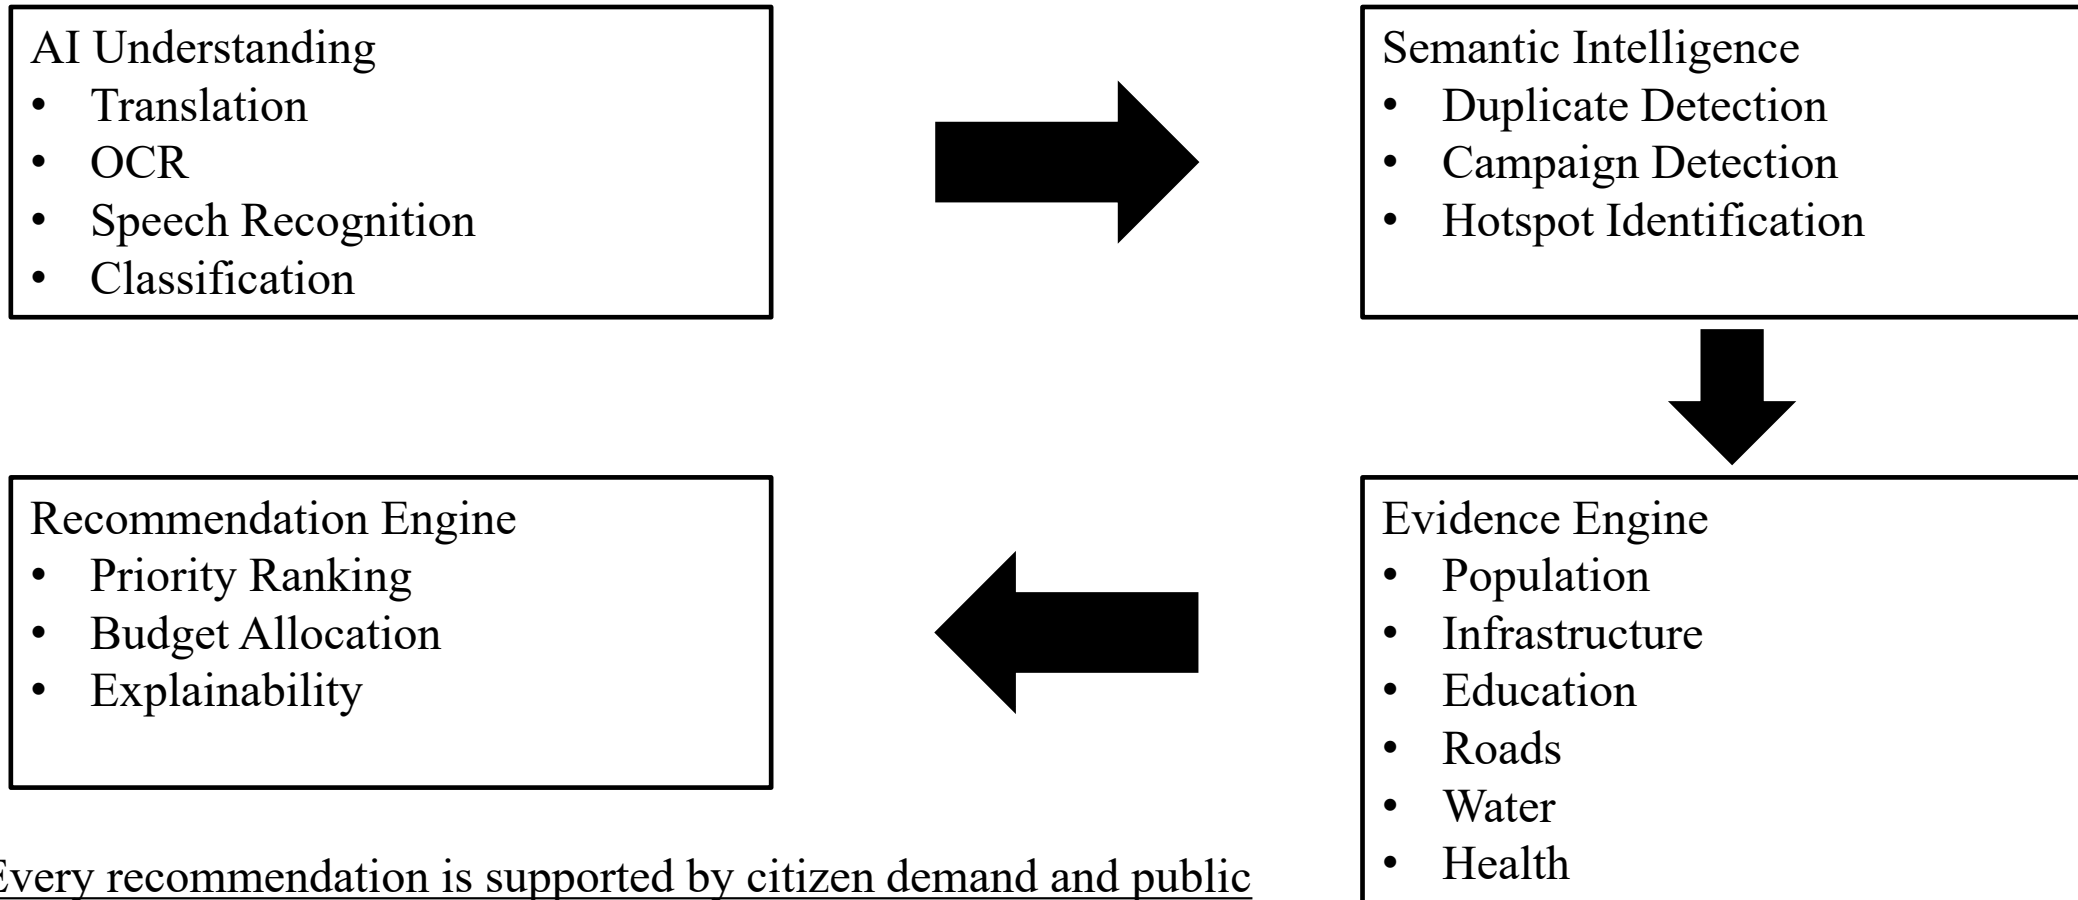

From citizen voices to evidence-based public investment.

SYSTEM ARCHITECTURE

Technology Stack: Next.js | Supabase PostgreSQL | Gemini AI | Leaflet | Recharts | pgvector

AI INTELLIGENCE PIPELINE

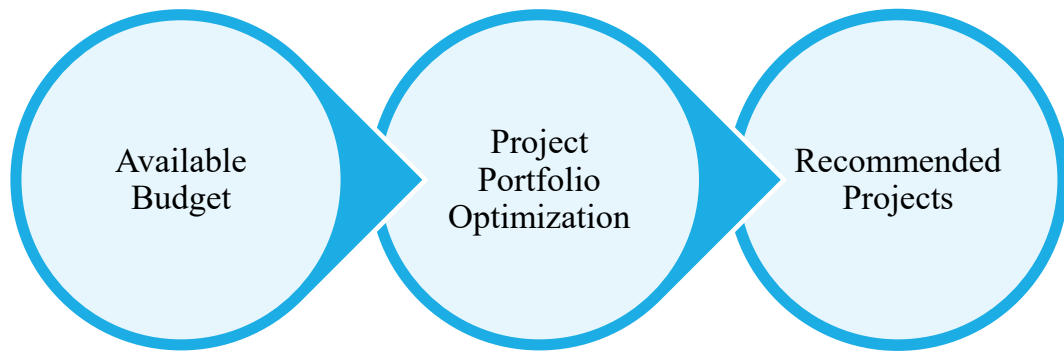

Every recommendation is supported by citizen demand and public evidence.

EXPLAINABLE PRIORITY SCORING

Factor	Weight
Demand Intensity	20%
Population Impact	15%
Infrastructure Gap	15%
Equity Need	15%
Urgency	15%
Feasibility	10%
Strategic Alignment	10%
Trust Score	5%

Priority Score = Weighted combination of eight transparent indicators

AI BUDGET OPTIMIZER

Scenario A

Maximum Overall Impact

Scenario B

Maximum Citizens Benefited

Scenario C

Maximum Equity

Scenario D

Maximum Urgency

Uses Dynamic Programming (0/1 Knapsack) to maximize public impact under budget constraints.

RANK	PROJECT DETAILS	LOCATION	ESTIMATED COST	SCORE	SCENARIO STATE	ACTIONS
#1	Clean Water Pipeline Upgrade WATER	Ward 4 - Kondhwa Khurd	₹3,50,000	85	FUNDED	Explain
#2	Community Health Sub-Center HEALTH	Ward 4 - Kondhwa Khurd	₹6,00,000	77	FUNDED	ExplainApprove
#3	Drinking Water Pipeline Extension WATER	Ward 3 - Wanowrie Central	₹5,50,000	68	DEFERRED	ExplainApprove
#4	Main Road Repair & Streetlighting ROAD	Ward 5 - Mundhwa Junction	₹2,00,000	68	FUNDED	ExplainApprove

KEY INNOVATIONS

- AI Features
 - Multilingual AI
 - Explainable Recommendations
 - Human Verification Queue
 - Campaign Detection
 - Semantic Clustering
 - Budget Optimization
- Engineering
 - Supabase
 - PostgreSQL
 - pgvector
 - API Rate Limiting
 - XSS Protection
 - Secure Headers
 - TTL Cache
 - Audit Logs

IMPACT

- **Today**
 - Transparent planning
 - Evidence-based prioritization
 - Reduced manual effort
 - Better citizen engagement
 - Faster development planning
- **Future Scope**
 - Live WhatsApp Integration
 - Real Government APIs
 - GIS Analytics
 - Predictive Development Planning
 - State-wide Deployment
